

# ***RISK*** vs. ***REWARD***

*How much would you bet you're right?*

A real-time trivia game where contestants wager their confidence on every answer, shaping how much they can win – or lose – throughout the game.

**Format:** 1-Hour Studio Game Show   **Players:** Solo or Couples   **Structure:** 12 Questions per Game  
**Episodes:** 2 Games per Episode   **Prize Range:** \$0.01 to \$1,000,000

## **THE HOOK**

RISK vs. REWARD transforms trivia into a real-time decision system where confidence directly controls financial outcome.

As contestants adjust a live slider before each answer, they instantly see:

- what they will win if correct
- what they will lose if wrong
- and how much they can still win going forward

*Every decision permanently shapes the path to the final prize.*

**NOT A QUIZ SHOW. A DECISION SYSTEM.**

A deceptively easy question... worth a million dollars.  
Would you know it – or how much would you RISK?

# Concept Overview

## What is RISK vs. REWARD?

A high-stakes trivia game show where contestants control their fate using a dynamic RISK/REWARD slider.

Each of 12 questions lets them choose a category and set how much they're willing to risk – and how much they stand to gain.

The more they risk, the more they can win... or lose.

At maximum risk, a perfect game earns \$1,000,000.  
Miss every question? You still walk away with \$0.01.

**RISK vs. REWARD**

Question: 12    Category: Measurements

How many tablespoons are in one cup?

☐ A) 48

☐ B) 3

☐ C) 24

☐ D) 16

**-\$318,226.45 RISK**

**REWARD \$466,330.08**

Countdown: 81

**If you miss...**

|                        |                     |
|------------------------|---------------------|
| You now have:          | \$533,669.92        |
| Minus RISK:            | \$318,226.45        |
| <b>You would have:</b> | <b>\$215,443.47</b> |
| <hr/>                  |                     |
| You Would Win:         | \$215,443.47        |

**If you are correct...**

|                        |                       |
|------------------------|-----------------------|
| You now have:          | \$533,669.92          |
| Plus REWARD:           | \$466,330.08          |
| <b>You would have:</b> | <b>\$1,000,000.00</b> |
| <hr/>                  |                       |
| You Would Win:         | \$1,000,000.00        |

Lock in Answer

## **What Makes It Unique**

- Slider Mechanic – Contestants control their own stakes
- Psychological Pressure – Strategy meets stress
- No Walk-Away Option – Every decision counts
- Compounding Rewards – Like interest, the stakes grow
- Play-Along Potential – Viewers naturally test their own confidence on every question
- Couples Mode – Adds emotional tension and teamwork

***Knowledge and confidence become two separate skills.***

# How It Works

- 12-question studio game
- Contestants choose a category each round
- Question and answers appear first
- Contestants select an answer
- Then set confidence using a real-time slider
- Bank and how much they can win update visibly
- Lock in → instant reveal
- One “Do Over” lifeline (Questions 1-6 only) – cancels a disastrous moment and replaces the question

***Every decision visibly changes the contestant's financial trajectory.***

See the stakes unfold.

How would *you* play?

# The Stakes

- RISK and REWARD values compound over time
- Early rounds build slowly
- Final rounds can spike dramatically
- One wrong answer can drastically reduce what you can still win
- Strategic confidence management is key to maximizing winnings

*Each step intensifies the risk. The million isn't just a number – it's the final leap that separates legends from*

## Tone & Host

- The host is the audience's guide through risk – sharp, quick-witted, and emotionally attuned
- They translate confidence into consequences, narrating rising stakes with humor, empathy, and precision.
- Keeps the energy high and the gameplay fun

*“You start the game with money in the bank. The producer says that’s for putting up with me.”*

*“I wouldn’t worry about the money – I get paid the same no matter how you do.”*

## Audience & Appeal

- Ages 18-49, broad gender appeal
- Trivia fans, strategy gamers, risk-takers, and casual viewers
- Viewers don't just watch the game – they play along
- Every question sparks debate: *“What would you have done?”*
- The show naturally generates social buzz, strategy discussion, and repeat viewing

## Set & Visual Style

- Sleek, modern set with a central slider control
- Real-time graphics show RISK, REWARD, and trajectory
- Countdown timer and dramatic lighting build tension
- Designed for high visual impact and audience immersion

## Spin-Off Potential

- Couples Edition – Shared decision-making and drama
- High Stakes Week – Bigger prizes, tougher questions
- International format potential with localized trivia
- Celebrity Edition – Famous players risk winnings for charity

# ***RISK*** **VS.**

# ***REWARD***

*is more than a trivia game.*

*It's a test of nerve, knowledge, and how far you're willing to go.*
